VOL. 20, NO. 40

SIERRA MADRE, LOS ANGELES COUNTY, CALIFORNIA

FRIDAY, JULY 2, 1926

Referendum to be Invoked In Effort of Irrigators to Nullify Higher Water Rates

Referendum proceedings to halt the raise in municipal water rates are under way as a result of the action of the board of city trustees in adopting the new water ordinance at their regular meeting last week. The new rates provide for a general increase of 20 per cent over present rates.

In addition there will be certain other changes designed to bring in more revenue. One is in the method of accounting for vacant houses. The minimum domestic rate will be charged whether a house is occupied or not. The only way to avoid paying the minimum is to have the meter taken out. Replacement of the meter will involve a new charge of \$5 for the service.

Trustees Unanimous

The ordinance was adopted by unanimous vote of the trustees present. The roll call showed Trustee Tarr absent and Trustees Bacon, Belohlavek, Topping and Sparks voting for the ordinance. Trustee Topping had voted against the ordinance when it was up for first reading, and it had been reported he would have reinforcements in opposition to the ordinance, so its unanimous adoption was a surprise in some quarters.

Active opposition to the ordinance came chiefly from orchard owners who are classed as irrigators. During the months the ordinance has been under discussion it was claimed that that did not represent any considerable portion of the sentiment of the town. Figures compiled by City Clerk Dietz showed more than 200 consumers use water in quantities putting them into the "irrigator" rate classification.

Present Rates Profitable

The irrigators based their opposition largely on the plea that higher water rates would be prohibitive to orchard operation and discouraging to people who want to maintain attractive lawns and gardens. They claimed that the advance in rates is not necessary in view of the showing of \$28,000 surplus revenue produced by the department in the last four years.

Additional opposition was added to that of the irrigators in answer to the claim of the city trustees that the increased revenue was needed for betterments and extensions to the water system. No other purpose was publicly announced by the trustees in pleading the necessity for the increase.

Burden Uneven

To raise money by means of water revenues for betterments and extensions was regarded by many people as unsound financing. They pointed out that these are capital expenditures which should be met by equal taxation on all property in Sierra Madre. The same benefits would accrue to all property, whether improved or vacant. The idle land would thus be made to bear its share instead of getting the benefit of the enhanced values while the cost would be borne by the water consumers under the plan of higher water rates.

"If we are going to pay for improvements out of water rates," said one irrigator yesterday, "why not do away with city taxes and pay all of the expenses of the city out of water revenues. Instead of talking about a bond issue for a city hall, let's just raise the water rates and pay for it that way."

Petitions Ordered

At a meeting of irrigators who have been opposing the advance in rates it was definitely decided to draw up and circulate a referendum petition against the ordinance. Less than 100 signatures will be needed to make the referendum effective and it is believed they will have no difficulty in securing these names.

If the referendum is presented to the board of trustees three courses of action will lie open for them. Immediate repeal of the ordinance would dispose of it at once. Otherwise the operation of the ordinance would be suspended until it could be submitted to a vote of the people. This could be done at an election called for the purpose. Or the vote could be deferred until the time of the next regular election.

The attitude of those opposing the action of the board of trustees appears to be entirely friendly and devoid of bitterness which has characterized some differences over public affairs in the past. The men who are active in the matter simply feel that a mistake has been made which they are making an effort to rectify.

MONDAY HOLIDAY

Don't forget to stock up for two days when you do your Saturday shopping. On account of July Fourth falling on Sunday the national holiday will be observed on Monday with a general closing of stores.

Merchants are urged to do their decorating and put out flags not only on account of the holiday but because of the expected visit of the National Editorial Association Monday afternoon.

Health School To Start Here July Seventh

The Summer Health School will be in session in Sierra Madre from July 7th to August 29, inclusive. The school hours are from 9 a. m. to 3 p. m. A hot lunch will be served at noon, and there will be a mid-morning lunch consisting of milk and crackers, and a mid-afternoon lunch consisting of orange juice.

The children will be weighed and measured regularly one day each week, and there will be two un-interrupted rest periods each day. Each child will have a careful physical examination before entering school, and be checked up every two weeks during the summer.

Regular Faculty

The personnel of the school will consist of one full time public health teacher, one full time kindergarten teacher and one full time dietitian. In addition Miss Stafford will have charge of the health education, Miss Bohan, physical education and Miss Sedgwick of the nutrition work.

Mothers' meetings will be held once a week to be open to the public, at which lectures will be given by different educators employed and a special talk by the local district health officer, Dr. J. M. Furstman. An endeavor will be made to have these lectures illustrated with lantern slides and charts.

Quiet Is Essential

The aim of the Summer Health School of the Health Department and the Tuberculosis Association of Los Angeles county is, so far as possible, to instill into the minds of the children in attendance certain fundamental health habits. The methods and objects to be used are quite simple because of the fact that the children concerned are to be taught the value of rest and quiet, rather than to be made to work. The chief effort is to make the children happy and contented.

The community is asked to supply the funds to purchase the food supplies, estimated to be \$250, all other expense being borne by the organizations that are backing the project. Contributions should be mailed to Attorney Robert Mitchell who represents the Los Angeles Tuberculosis Association.

Gifts of oranges for the use of the children will be very much appreciated. If you have any to spare, phone to Mr. Mitchell or to Miss Elizabeth Steinberger.

ADAMS-YOUNG

The wedding of Mrs. Maude Adams of Columbus, Ohio, and Mr. Nestor A. Young of Sierra Madre took place Wednesday evening at Westwood, the ceremony being performed by Rev. A. O. Pritchard of Sierra Madre, in the presence of a few close friends and relatives. The bride, who is the daughter-in-law of A. N. Adams of Sierra Madre, has been a member of the domestic science faculty of the University of Ohio. She has often visited in Sierra Madre and has many warm friends here. Mr. Young is engaged in business in Los Angeles but has resided in Sierra Madre several years. They will make their home at 209 West Highland.

ly and devoid of bitterness which has characterized some differences over public affairs in the past. The men who are active in the matter simply feel that a mistake has been made which they are making an effort to rectify.

Observations

(By G. B. M.)

TOWN BUILDING—

Having spent various periods in Sierra Madre in recent years, M. W. Hall of South Pasadena is almost like an old timer now. He and his wife are at present occupying the C. W. Jones residence on Alegria street.

About 25 years ago Mr. Hull and Mr. Jones were members of the high school faculty at Pueblo, Colo. The intimacy of the two families continued in later years after both had come to California. From that friendship resulted the bringing to Sierra Madre of Mr. Hull's brother, W. S. Hull.

The latter had wandered off of Uncle Sam's preserves through an association with the Studebaker corporation in Winnipeg. He came to California with his family to enter the hardware business with Mr. Jones and C. M. Clark. Of the three he is the only one remaining with the Sierra Madre Hardware Company, which has since been incorporated, with Fred Griebenow and C. B. Klunk as the other stockholders.

There are various ways of community advertising. But the best way in the world is to make a community so worthwhile that the people in it will induce their friends to come and enjoy it with them.

OUR ELITE SUBSCRIBERS—

This is the time of year when I am invariably caused to swell up with pride over one feature of the News subscription list. Every summer several people are sure to come into the office and make a confidential request that news of their impending vacation trip be kept out of the paper. It will be alright to tell about it when they return, but they are afraid if their departure is heralded the fact of their house being vacant will be an incentive to burglars to try their luck. I always thank them for the compliment for the whole News force is proud of the number of high-class burglars to be found on our subscription list.

♦ ♦ ♦

GIVING THE EDITORS THE REAL THING—

You simply can't beat this California climate. That caravan of eastern editors got a turkish bath in Arizona and Imperial Valley and three or four days ago it looked as if they might get one in Los Angeles. But the temperature was simply made to order for the opening of their convention session, with every prospect of cool weather (the usual delightful summer kind) for the remainder of the week.

And then, just to let them know we have nothing to conceal, we have a real earthquake on the day of their arrival. Having lived through that and seen with their own eyes that our buildings still stand, they will be prepared to enjoy the rest of their stay with every feeling of security. And when they drive up to Santa Barbara next week on their way

Campbell Is Chosen For C. of C. Work

J. Morrison Campbell, 484 Mariposa Avenue, was appointed secretary of the Sierra Madre Chamber of Commerce at a meeting of the board of directors Wednesday night. Mr. Campbell has been assisting the directors in the volunteer work by which the affairs of the organization have been carried on for several months past. His work has been so effective that the directors felt they could make no better selection for the office.

One of the first matters to receive the attention of the Chamber of Commerce will be the various highway projects in which Sierra Madre is interested. Mr. Campbell was appointed to the highway committee with J. N. Hawks and Major C. S. Floyd.

home, they will see what has been accomplished since the earthquake just a year ago. With never a crack in the new construction from this last test tremor, they will have before them a splendid demonstration of the heroic spirit which was brought out by that calamity.

SPREADING THE FAME OF GOOD GOODS—

Some weeks since I wrote a few observations about the splendid marmalades developed by E. Waldo Ward and shipped by him to very particular customers in widely scattered parts of the United States. Now Mr. Ward tells me he has received a copy of that article from a New York grocery trade journal. They send it to him for verification and tell him if it is authentic they would like to use it as an item of interest to their readers.

♦ ♦ ♦

AMIALE—

What do I think about her? Well, I think she was kidnapped and the kidnapping was a part of a conspiracy. I think she walked to Mexico by way of San Francisco, London and Tucson. If she failed to get her shoes scuffed up during that last twenty miles of walking in the desert it was probably because she is such a fine swimmer. As to the corsets, I thought she was too up to date to wear 'em. But if she says she bought 'em in Honolulu it's alright with me. A lot of people have faith in her and I hope she can prove they have not misplaced it. But I haven't the patience to listen to her explanations any more than I have to read the daily newspaper accounts which have made monkeys out of the public and coined money for themselves. The News is the only paper in California that isn't giving her a lot of free advertising. That is partly because she is such an advertising genius that she doesn't need it, and partly because I think she was drowned at the beginning of the conspiracy.

PERMITS FOR FIRST HALF OF YEAR \$218,984

Building permits for the first half year in Sierra Madre make an excellent showing in spite of a slight falling off as compared with the same period last year. The building permits issued by Building Inspector A. M. Udell for June were as follows:

Geo. Halpin, 167 Merrill.....	\$ 125
L. Hardenburgh, 435 E. G. Vw. 50	
L. ardenburgh, 435 E. G. Vw. 50	
Dr. W. J. Barlow, Wilson av. 5800	
F. Pickard, N. S. M. av.....	450
D. J. Willett, Canyon Park 500	
D. A. Baxter, 271 N. Lima.....	50
Carl Potter, 646 W. Highland 3000	
R. S. Webb, Canyon Park.....	1000

Total for June	\$13,875
June, 1925	44,500
This year to date	\$218,984
First 6 months of 1925.....	233,185

Nearly Forty Years Is Life Of Linoleum

Nearly forty years as the life of linoleum for floor covering is the remarkable record of two different entrants in the contest for the oldest linoleum in Sierra Madre held during the last month by the Sierra Madre Furniture company.

When Manager Tom Tyler opened up the entries at the close of the contest on Wednesday he found two pieces of linoleum reported as in use for thirty years. One was entered by Mrs. Lillian Morrison, 30 Victoria Lane, and the other by Dr. George W. Lafer, 48 Esperanza Avenue.

In an effort to determine which was the older in the settlement of the tie and verification of the age claims, a careful investigation was made. It was then found that both had been in use for longer periods than had been claimed at first. The linoleum reported by Mrs. Morrison was in the house built by Emil Deutsch, a Sierra Madre pioneer, about 1887, and had been in use ever since the house was completed. The linoleum reported by Dr. Lafer was in a house built by S. R. G. Twycross about the same time, and had likewise been in use ever since.

So remarkable was the record of these two pieces of linoleum that it was decided that no distinction should be made and each would be awarded the prize of a new floor covering on the same basis. Accordingly, Mrs. Morrison and Dr. Lafer were notified to come to the Sierra Madre Furniture Company's store and select the pattern of Armstrong linoleum to replace the venerable linoleum now in use.

The campaign to find out who had the oldest linoleum in Sierra Madre was carried on entirely

(Continued on Page Eight)

Raise Funds To Restore Canyon Pool

The campaign to raise funds for restoring the canyon swimming pool to use has been carried on busily during the past week by Mrs. J. P. Nash, Mrs. Albert M. Croxson and Miss Laura Cadmus. They have raised \$700 in cash and pledges and are anxious to have the work hastened in every possible way. It had been their hope that a meeting of the board of city trustees might be held last night to consider the project, but the members did not find it feasible to hold the extra meeting.

The following letter was addressed to the board by the Canyon Improvement Association, telling what has been accomplished so far:

June 30, 1926.

Mr. J. D. Sparks, Chairman of Board of Trustees, City of Sierra Madre.

Dear Sir: The Canyon Improvement Association desires to inform you as follows:

We have cash to hand to date to clean out the Canyon swimming pool of approximately \$500, pledges of \$200 and we are assured more money can be raised. Therefore it is requested that you call a special meeting of the Board of Trustees for July 1, at which gathering it is our desire that you devise ways and means of advertising for bids to proceed with the work of cleaning the Canyon pool immediately.

That these bids be received back within less than one week of date of issue.

Ladies Do the Work

We have secured from Mr. House permission to fill his lot, subject to your supervision, and have written Mr. Mason, owner of the adjoining lot for like permission.

In the meantime we desire to know if you could not authorize the use of the city equipment to take the large boulders now resting on the top of the pool, and

(Continued on Page Eight)

GARDEN SCENE FOR WEDDING ON WEDNESDAY

A garden with curving paths and illuminated archways banked with a profusion of summer blossoms of shasta daisies and greenery, was the attractive setting for the wedding of Miss Bernice Velma Lawrence, daughter of Mr. and Mrs. C. E. Lawrence, and Vernon Arthur Udell, son of Mr. and Mrs. Arthur M. Udell.

The ceremony was solemnized Wednesday evening at 7:30 at the home of the bride's parents on Villa Road, west of Sierra Madre. The Rev. Paul Goodwin of Pasadena read the impressive service in the presence of a large gathering of friends and relatives.

Miss Lawrence chose for her maid of honor, her sister, Mrs. Lauretta Belohlavek, and Alfred Belohlavek, brother-in-law of the bride, served Mr. Udell as best man. Alice Lawrence, sister of the bride, was ring bearer and Thelma Lawrence, also a sister, scattered rose petals in the path of the bride.

The bride, who was given in marriage by her father, presented a lovely picture in her wedding gown of white flate crepe beaded in crystal. She wore a long tulle veil caught with orange blossoms and carried a shower of white roses and maiden hair fern.

Mrs. Belohlavek, herself a very recent bride, wore an attractive gown of white satin and carried a lovely bouquet of white sweet peas. The little ring bearer and flower girl wore dainty frocks.

Following the ceremony a reception was held with 125 guests present. Mr. and Mrs. Udell left for a wedding journey by auto and on their return will reside at 454 East Highland street, Sierra Madre. Mr. Udell is connected with the Sierra Madre water department.

Auto Club Is Aid in Visit Of Editors

For the first time in the history of the organization, many delegates to the 1926 convention of the National Editorial Association came to California the end of June by automobile. A recent check of the inquiries from editors in all parts of the United States by the touring bureau of the Automobile Club of Southern California indicated nearly 100 cars making the trip to Los Angeles for the session of the current week at the Alexandria Hotel.

The editors and their families coming by motor car had their complete itineraries planned for them by the auto club. Invitations were extended to every member of the national association to write the club for detailed information and maps and the result was that the delegates coming in their own cars were prepared not only to tour California thoroughly, but to take in the whole Pacific Coast.

The big motoring organization, which is the largest of its kind in the world, presented each delegate with a "courtesy card" which is in fact a temporary membership in the organization while they are the guests of California. All of the many services of the club will be free to the visitors, and maps of golf courses, highways, recreation points and points of interest will be furnished to all visitors upon application.

Prize Story Offer

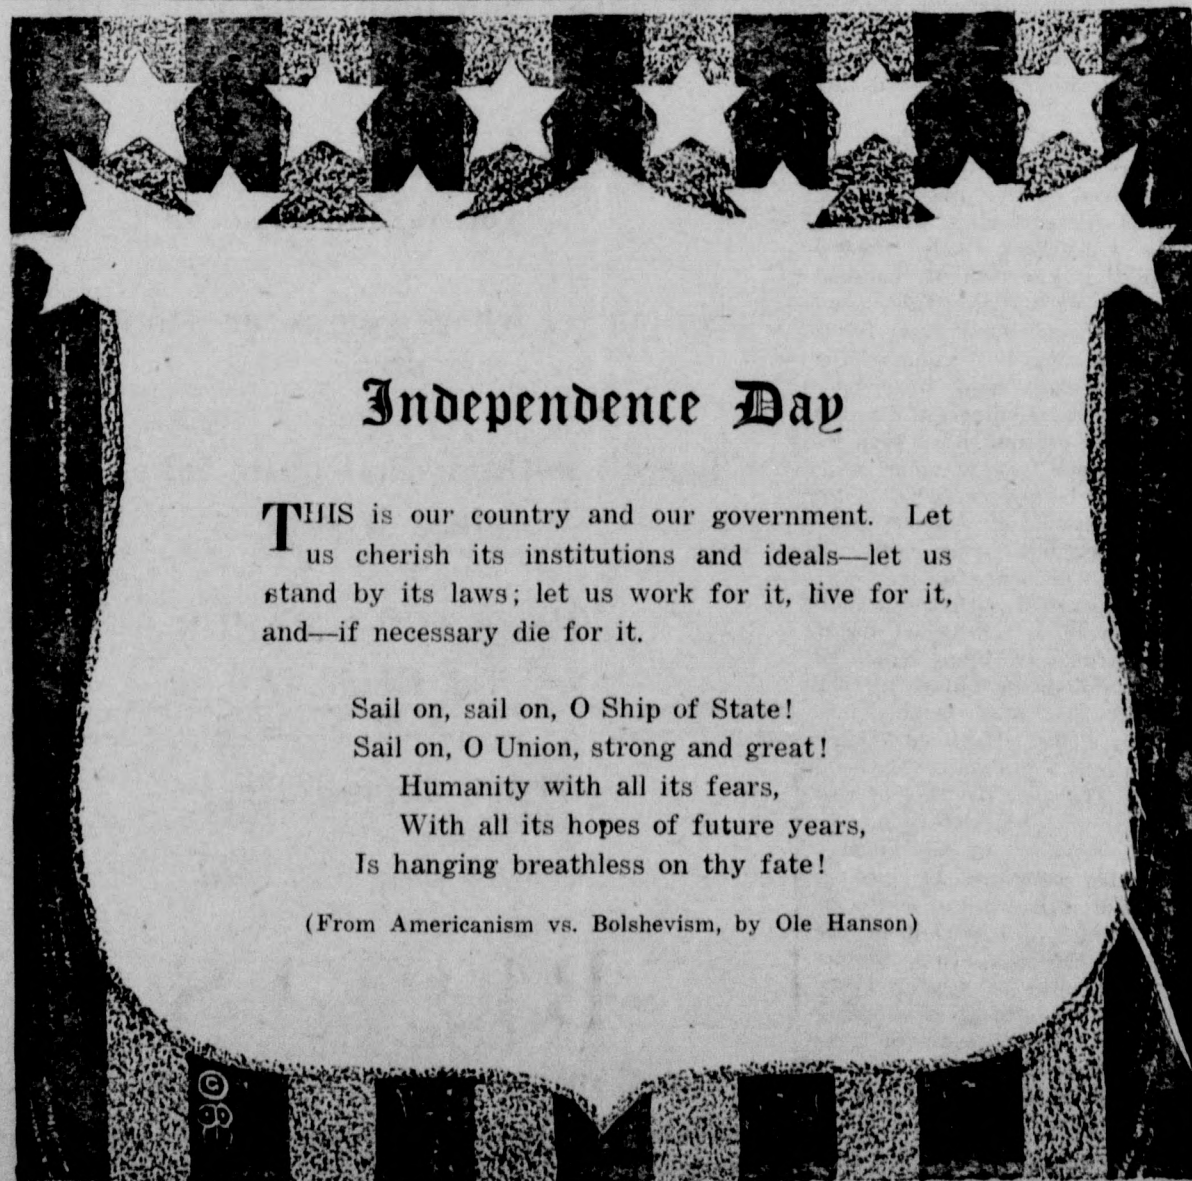

The auto club also is interested in what the visitors think of motoring in this section. On the theory that frequently visitors obtain a more comprehensive idea of the charm of places visited than do the residents, Henry W. Keller, president of the Automobile Club of Southern California, has offered three cash prizes for the best story printed in the respective papers of the editors, on motoring in Southern California. The story must not be more than 1000 words in length and the successful competitor will be awarded \$100 cash for the best story, \$75 for the next best, and \$50 for the third prize. The judges will be selected from among the members of the Southern California Editorial Association, which is the official host of the convention.

In connection with the visit of the editors, the automobile club official suggests that the various towns of Southern California put on their best bibs and tuckers for the occasion, as the opportunity is unrivaled for obtaining favorable publicity. It has always been the custom of the editors to describe in detail what they have seen on side trips incidental to their convention entertainment. There will be something doing for the editors and their families attending the convention during almost every hour for eighteen days while they are in the state. Various sightseeing trips are scheduled and in addition it is the custom for many of the delegates to remain for several weeks after the formal program is completed to visit with friends, and to make a more thorough inspection and study of the convention state.

While other conventions are more spectacular, there is no group of persons more welcome in any community or state than delegates to the National Editorial Association conventions. Each is not only a representative citizen of his community, but is the publisher or editor of the leading publication in his district, and his impressions thus are conveyed to thousands of his readers.

The National Editorial Association convention such as is being held in Los Angeles means that a circulation of many millions of readers throughout the United States will be reached by the impressions of these editors. Hence, it is pointed out by the auto club that it behooves Southern California communities to look their prettiest while they are under the inspection of the Argus-eyed representatives of the press.

Rev. A. O. Pritchard and family have leased the house at 221 West Grand View and moved over from Pasadena this week. Since taking the pastorate of the Congregational Church here in January, they have continued living in the home which they owned on North Los Robles Avenue in Pasadena.

Independence Day

THIS is our country and our government. Let us cherish its institutions and ideals—let us stand by its laws; let us work for it, live for it, and—if necessary die for it.

Sail on, sail on, O Ship of State!
 Sail on, O Union, strong and great!
 Humanity with all its fears,
 With all its hopes of future years,
 Is hanging breathless on thy fate!

(From Americanism vs. Bolshevism, by Ole Hanson)

News Notes from Here and There

"I'm a chicken picker," said 16-year-old Harold Burch, in answer to queries by Venice police officers following a loud explosion which tore the muffler from his flivver. Lack of driver's license and the presence of a bottle of wine in the car gave the case a serious turn, so far as the young chicken picker was concerned. His occupation was found to be removing the "clothes" from chickens (real barnyard chickens) on a poultry farm.

The highway from Riverside through Perris and Hemet to the foot of Idylwild has been named the De Anza Trail in memory of Juan Bautista De Anza, early Spanish explorer.

Garfield grove of big trees in Sequoia National Park, declared one of the most magnificent in California, has been saved from the fire demon which on Wednesday advanced upon it from three directions and resulted in calls for assistance from the valley. All of the thirteen fires within the park started recently by electric storms are under control but one.

Joshua Stockton, Ventura county pioneer, bearded a lion in its den recently, when he encountered a large and ferocious lion on his ranch at South Mountain. Stockton was unarmed, but started to approach the big cat, which had crouched and appeared ready to spring. Under the barrage of the rancher's steely glances, however, the lion turned tail and disappeared into the bush.

Every nook and cranny of Northern Kern county is being combed by deputy sheriffs and police officers in an effort to locate Edward J. Ketcham, "four-gun bandit," convicted of robbery, who escaped from a Southern Pacific train just south of Famosa. The bandit was enroute to Folsom prison.

Three men were sentenced to serve ninety-day jail terms on reckless driving charges in which liquor was involved, when they appeared before Judge Elliot Gibbs. E. S. Applegate, Altadena; Jesse L. Greene, Los Angeles, and William Leonard, Hollywood motion-picture man, were the defendants. They were each fined \$100 in addition to the jail sentence.

C. M. Corwin, superintendent of the Pollok ranch near Tipton is believed to have broken the Tulare county record for grape shipments when he sent out fruit by express last Sunday. July 4 is usually considered early.

Feminists gained a victory when the Pasadena Board of Education decided that a married woman teaching in the Pasadena city

FRUIT STAND AT CHAFFEE'S UNDER LEASE

L. D. Smith who was for six years manager of the Chaffee store in Lamanda Park has leased the fruit and vegetable concession in the Chaffee store on North Baldwin Avenue. Under the new policy since the Safeway stores acquired the Chaffee grocery business, there has been a separation of the meat and vegetable departments from the groceries. The Safeway company operates grocery stores exclusively.

Mr. Smith will devote all his time and attention to the fruits and vegetables and the store has been rearranged to permit showing his wares to better advantage than before. Ove Olsen remains as manager of the grocery store, and Austin Gibbs remains as manager of the meat department. During his vacation Rupert Ridgeway is in charge.

schools should not be required to use her husband's name.

Pine Bench, a mesa lying north of the Banning Water company property in the San Bernardino Mountains, has been closed to the public because of the fire hazard.

Mountain and beach resorts in cooler sections of California will have an added population of 20,000 persons from Imperial Valley during the week-end of July 4th and 5th, according to estimates by valley business men.

With the rapid increase of the puncture vine in San Fernando Valley, the weed is becoming a menace to auto travel. Chambers of Commerce are urging control measures.

Suits aggregating \$3110 based upon asserted unpaid pledges to the Santa Ana Y.M.C.A. building were filed in Santa Ana Justice Court by the Orange County Credit Association, which holds the assignment of claims from the "Y."

New Highway Now Nearing Barley Flat

Reporting that the new government road from Mount Wilson to Barley Flats is approximately half finished, United States Forest Service officials stated on Wednesday that another three months would see the completion of the large project which will be one of the most important factors in fire prevention provided in the Angeles National Forest in many years. The road will extend from Mount Wilson north, near Opid's Camp, to the head of the West Fork, and will proceed toward Barley Flats via the divide in that section of the mountain district.

The main purpose of the road is to move fire fighters during the summer season from the foothill district over Mount Wilson to the Barley Flats area. The road will be nine feet in width and will be sufficiently wide for auto traffic, with turnouts sprinkled at intervals over the entire distance of eight miles.

Thirty men are engaged in the construction of the road, which penetrates a rocky and rough country wherein it is difficult to establish a road. The government has already spent \$50,000 in the work and before it is finished another \$50,000 will be spent. The blasting of mountain sides and making of grades are declared to be the greater burden of the expense.

The sum of \$25,000 will come from the \$1,089,386 California will receive as its share of the \$7,500,000 appropriated by congress in the Department of Agriculture bill to be expended during the fiscal year beginning July 1 in the development of roads within and immediately adjoining the national forests. In addition, the sum of \$100,000 is hoped for from a proposed appropriation as the result of a compromise in the controversy over the "Million Dollar" Forest bill which has been pending before congress. This \$100,000 would apply to Southern California forests, the largest amount to come for improvement in the Angeles.

Under the minor road and trail program of the Forest Service, 139 miles of simple mountain roads and 174 miles of trails will be constructed in the state during the new fiscal year. The service maintains 2518 miles of roads and 7004 miles of trails now in use in the national forests. Of the \$1,089,386 allotted the state, \$681,222 will be expended in the construction of major forest highways, and \$408,164 on minor roads and trails necessary for the protection and development of federal forest resources. Ten per cent of the revenues from the national forests of the state, or about \$100,000, will also be available for expenditure on roads and trails of the latter class. The bureau of public roads will supervise the construction on all major road projects.

California will also receive approximately \$2,484,706 as its apportionment of the \$73,125,000 authorized by the Postoffice Appropriation Act of February 12, 1925. This fund will be expended by the State Highway Commission in the improvement projects on the 7 per cent Federal Aid Highway system, many miles of which lie within the national forests.

Of the forest highway fund the Secretary of Agriculture on June 2 approved the expenditure of \$100,000 for surfacing 14.9 miles of the Yuba Pass road; \$150,000 for grading a section of the road from Truckee to Lake Tahoe, and \$50,000 to supplement other funds for constructing 17.8 miles of the Mendocino Pass road in Mendocino county. Contracts for the two former projects have been let and the work is now under way. Bids have been received for the latter project, and forestry officials state that work will be started in the near future.

In co-operation with the national park service, additional forest highway funds are being employed in the preliminary survey of the Big Oak Flat road leading into the Yosemite National Park through the Stanislaus National Forest. The final location of this road is now being determined so that an exchange of timber may be effected between the government and private lumber companies, which will permit of the retention and perpetual protection of a strip of timber along the highway route; thus affording the motorist the pleasure of traveling to Yosemite Valley over a highway flanked on either side by virgin forests.

Baptists To Take Chance On July Rain

Sunshine and plenty of it will be the meteorological menu for 7000 young Baptists who will meet in Los Angeles, July 7 to 11, in the annual international convention of the Baptist Young People's Union of America. Unless all weather records for Southern California are reversed, the period of the convention will be fair and bright. The young Baptists, although traditionally unafraid of water, will not be compelled to use rain checks at the Los Angeles conclave.

Last year, when Los Angeles was host to the great Shrine convention, rains during the first week in June moistened but did not dampen the spirits of the gathering. The Baptists, however, in determining the convention dates for their organization, made a careful study of all rainfall records for thirty years past and are able to guarantee fair weather.

Only twice during the last thirty years has the weather office recorded even a trace of rain between the 5th and 12th of July, and never in that period has a measurable amount fallen. The rainfall records for the entire month reveal that July is the driest month of the year; that the first half of the month is slightly more arid than the latter half, and that the second week of the month is a shade less liable to precipitation than the first week. The Baptists, therefore, in choosing July 7-11 as their convention dates, selected the period during the year most likely to be ideal convention weather.

The record rainfall of slightly more than half an inch during the first week of June, last year, was the occasion for much laughter at the expense of Los Angeles, and, in fact, was almost as much of a surprise to residents of the city themselves as to the thousands of strangers in the city. It was not entirely unique, however, for the weather office records indicate

REAL ESTATE JOBS OFFERED BY THE STATE

Young men interested in the state real estate law and the operations of the State Real Estate department can find opportunity for position and advancement at good salary by securing the position of deputy in the department, according to a statement made by State Civil Service Commissioner David J. Reese. These positions pay from \$150 to \$250 a month. They are secured by applying to the Civil Service Commissioner and by subsequent interview and examination by the commissioner. Three years of practical experience in real estate transaction in California, either as broker or dealer or attorney, are necessary to gain admission to the examination.

that twice before since 1899 more than half an inch of rain has fallen in Los Angeles during the month of June.

Opposing Schemes Presented For Re-districting the State

Voters of California will probably have to choose between two methods of redistricting the state for election of state senators and assemblymen. The present senate and assembly districts were established in 1911 on the basis of the 1910 census. In the face of a constitutional mandate requiring reapportionment every ten years, three sessions of the legislature have failed to do their sworn duty.

It now appears the only method of securing action will be by means of an initiative measure submitted directly to the voters at the next state election. Two such measures are now being circulated in petition form. They represent the opposing views which prevented agreement and action by the legislators.

These two methods of apportionment are known as the "Constitutional" and the "Federal" plans. The former would follow the method provided by the constitution at present, but has provisions for securing action in case the legislature fails to act. The other is called the "Federal plan" because of its resemblance to the method of apportionment for Congress and some of the state legislatures. Membership of one house is chosen on a population basis and of the other by giving equal representation to states or counties regardless of population.

Obviously the fight is between the large centers of population, and the rural districts, sometimes referred to as the "cow counties." The situation is complicated somewhat by the jealousy between San Francisco and Los Angeles. In the old days San Francisco dominated the legislature, while an apportionment on population basis would now give Los Angeles control.

Petitions favoring the "Constitutional" plan are being circulated by the "All Parties Reapportionment Committee," a non-partisan body whose executive committee is composed of Los Angeles County central chairmen of the five political parties. The "Federal" plan is fostered by the California Farm Bureau Federation. Arguments submitted by both are here presented side by side so that voters may compare them easily.

CONSTITUTIONAL PLAN

The "All Parties Reapportionment Committee," a non-partisan body, whose Executive Committee is composed of the Los Angeles County Central Chairmen of the five political parties, was organized for the purpose of submitting to the people by initiative petition, the following amendment to Article IV of the Constitution of this state, to read as follows:

Reapportionment Commission

"Sec. 6½. The Secretary of State, Attorney-General and Surveyor General are hereby constituted the Reapportionment Commission, and if the Legislature shall fail, at its first session after each census, to adjust the Senatorial and Assembly districts and reapportion the representation as provided in Section 6 of this Article, then immediately after the adjournment of the Legislature at such session said officers shall meet as a Commission and proceed to adjust such districts and reapportion the representation in the manner provided for the Legislature.

"The Commission shall, within three months after the adjournment of the Legislature, prepare, sign and file with the Secretary of State, a report defining and designating the Senatorial and Assembly districts as so reapportioned, and thereupon such districts shall be so established with the same effect as if done by the Legislature. Within three months after this amendment takes effect the Commission shall make and file its reapportionment in the manner herein provided on the basis of the census of 1920. The Commission may be compelled by mandate of the Supreme Court to perform the duties hereby imposed."

The fundamental basis of our state government is equality of personal representation.

This proposed amendment, for the first time in the history of the nation, provides a means by which reapportionment—a compliance with the mandatory provisions of our constitution—can be compelled by the courts, and thus made absolutely certain.

The Constitution of California—the paramount law of the State—provides, in effect, that for the purpose of choosing members of the Legislature the State shall be divided into forty Senatorial and eighty assembly districts as nearly equal in population as may be, and that every ten years the Legislature at its first session after every national census "shall" adjust such districts and reapportion the representation so as to preserve them as near equal in population as may be."

This plain mandate of the Constitution was observed by the Legislature with a reasonable degree of promptness and with approximate fairness down to the extra session of 1911, the last Reapportionment Bill having been enacted at that session, which extended into 1912; and since then no Reapportionment Bill has been enacted.

In order to place the initiative measure on the ballot for the November 1926 election, 78,000 names, petitioning for the same must be filed with the registrars and county clerks of the stated counties before July 14, therefore, the "All Parties Reapportionment Committee," in session at its headquarters, Disabled Veterans of the World War Building, recommends the adoption of this most effective Constitutional Amendment to all citizens of the State of California who believe in preserving that

FEDERAL PLAN

Called the "Federal Plan" because it conforms to the principle embodied in the Federal Constitution with respect to representation in Congress from the states of the Union.

Provisions

Same number of Senatorial and Assembly districts as now. (40 Senatorial and 80 Assembly districts.)

Assembly districts as nearly equal in population as may be.

Not more than one Senatorial district in any county and not more than three counties in any Senatorial district.

Reapportionment commission created to act in reapportioning assembly and senatorial districts in case legislature fails to act.

Effect If Adopted

Makes a balanced legislature where neither centers of population nor rural territory can have complete control and where legislation seriously injurious to the interest of either cannot meet with favorable action.

Will write into California Constitution and carry into effect in California a fundamental and well established principle of American representative government.

Present Provisions

Both houses of legislature representative of population as nearly as may be.

(Complete control of legislature rapidly passing to centers of population, the three counties of Los Angeles, San Francisco and Alameda which comprise but 3 per cent of the area of the State but in which, according to 1926 population estimates are located 62 per cent of the people of the state.)

Need for Change

Rural California is placed at serious disadvantage under present provisions. Agriculture, the fundamental industry of the state, would soon be under domination of groups not sympathetically interested in rural problems.

Precedents for "Federal Plan" Federal legislature (Congress) composed of two houses, the House of Representatives where members are elected from districts as nearly equal in population as may be, while the other house, the Senate, is made representative of territory by having two members from each state of the Union regardless of population.

Some twenty-nine of the states of the Union have by constitutional or statutory provision adopted some form of the "Federal Plan" whereby the centers of population are not permitted to completely control the legislature.

fundamental right of equal personal representation.

Said committee urges the people to proclaim generally and celebrate "Reapportionment Day" as of July 5th, 1926, the legal day for commemorating the birthday of our nation, by signing these petitions everywhere.

THE TATTOO TRACER

A simple tattoo instrument has been devised for marking hogs as they leave the farm for the market so that they can be identified after slaughter. Such identification makes it possible to trace diseased animals to the farm where the infection originated. A tattoo mark properly applied resists all attempts to remove it. Such marks are valuable in establishing ownership of hogs in co-operative shipments as well as in combating

State Road Projects Get Federal Aid

San Francisco, July 1.—The state of California will receive \$1,089,386 as its share of the \$7,500,000 appropriated by Congress in the department of agriculture bill, to be expended during the fiscal year beginning July 1, in the development of roads within and immediately adjoining the national forests, according to District Forester S. B. Show of the San Francisco headquarters, United States Forest Service. Of the amount allotted the state, \$681,222 will be expended in the construction of major forest highways, and \$408,164 on minor roads and trails necessary for the protection and development of Federal forest resources. Ten per cent of the revenues from the national forests of the state, or about \$100,000 will also be available for expenditure on roads and trails of the latter class. The bureau of public roads will supervise the construction on all major road projects.

Post Roads

California will also receive approximately \$2,484,706 as its apportionment of the \$73,125,000 authorized by the Post Office Appropriation Act of February 12, 1925. This fund will be expended by the State Highway Commission in the improvement of projects on the 7 per cent Federal Aid Highway system, many miles of which lie within the national forests.

Of the forest highway fund, the secretary of Agriculture on June 2 approved the expenditure of \$100,000 for surfacing 14.9 miles of the Yuba Pass road; \$150,000 for grading a section of the road from Truckee to Lake Tahoe, and \$50,000 to supplement other funds for constructing 17.8 miles of the Mendocino Pass road in Mendocino county. Contracts for the two former projects have been let and the work is now under way. Bids have been received for the latter project, and forestry officials state that work will be started in the near future.

Highways Thru Timber

In co-operation with the national park service, additional forest highway funds are being employed in the preliminary survey of the Big Oak Flat road into the Yosemite National Park through the Stanislaus National Forest. The final location of this road is now being determined so that an exchange of timber may be effected between the government and private lumber companies, which will permit of the retention and perpetual protection of a strip of timber along the highway route, thus affording the motorist the pleasure of traveling to Yosemite Valley over a highway flanked on either side by virgin forests.

A location survey has also been completed and estimates of cost provided for constructing an additional section of the Bear Valley project in the San Bernardino national forest. The allocation of federal funds for this work will depend upon further investigations and negotiations now in progress.

Among the important minor road projects to be worked on or completed by the Forest Service during the next fiscal year is the Mt. Wilson-Barley Flat road. Allocations, \$25,000 Federal, \$25,000 Los Angeles county.

Under the minor road and trail program, the Forest Service will construct 139 miles of simple mountain roads and 174 miles of trails during the next fiscal year, in addition to maintaining 2518 miles of roads and 7004 miles of trails now in use within the national forests.

Soup Solos

Al: "Are these prunes fresh?" Waitress: "No, they are stewed."

Al: "That's all right. It makes me mad to have prunes get fresh with me."

"Waiter, there is a fly in my ice cream."

"Let him freeze and teach him a lesson. The little rascal was in the soup last night."

Know Your Stuff in the Out-of-Doors

Are you a good camper? Do you know how to behave out in the open as well as you do in the city?

These are the questions to be given serious consideration as the outing season approaches, according to Ceph Salisbury, manager of outing department of the Automobile Club of Southern California. In fact the matter is considered so important that he has compiled some camp philosophy which can be applied by all vacationists.

Be sure you know your camping companion. A wonderful pal in the city may turn out to be the worst kind of a bore on a camping trip.

Picking a camping partner is like picking a wife—you never know what you are up against until you have to live with them.

Everybody Works

The best way to insure harmony in camp is to select a duty for each person to perform. Many hands make light work. The quickest way to start discord in camp is to have a shirker in the party.

Wait upon yourself. Do not expect the other fellow to be your servant. He or she may also be out on the trip for pleasure.

If there is work to do, let all hands help to accomplish it and the whole camp will be happy.

Select Equipment

Use judgment in selecting your equipment; go light but comfortable. Some people like to brag about going with only their saddle blanket and frying pan. That all sounds great, but they do not do that nowadays. Auto-cushions are used now instead of saddles and sleeping bags instead of saddle blankets. Times do change. Remember a good bed is your best friend. A good night's sleep will put pep into you for the next day's pleasure.

Your wife and family will enjoy camp life more with things that make them comfortable. Don't ask them to sleep on a hard uncomfortable bed. You are out for pleasure and a rest, so go prepared to get it.

Do not overload your car with provisions. You can obtain them each day from some country store. You will always be able to find one every few miles.

Polite Young Man

A stout woman drove up to a filling station.

"I want two quarts of oil," she said.

"What kind, heavy?"

"Say, young man, don't get fresh with me."

Nine little hot dogs
Sizzlin' on a plate,
In came the boarders
And then they were ate.

HARRY A. HOLLZER

Oberhoffer To Conduct At the Bowl

Emil Oberhoffer, internationally famous orchestra leader, who made many friends in the Southland when he directed the Hollywood Bowl orchestra during the entire season of 1923, has the honor of opening the fifth gala season of Bowl concerts on Tuesday evening, July 6. He will direct every Tuesday, Thursday, Friday and Saturday evening from July 6 to July 17, inclusive, the concerts starting at 8:30 p. m.

Mr. Oberhoffer founded the Minneapolis Symphony orchestra, directed it for eighteen years and brought it to great heights of popularity. It has been ranked as one of the world's finest orchestras.

In the Bowl orchestra, Mr. Oberhoffer will, as formerly, receive a hearty response from every member. He is well liked by the orchestra personnel, which numbers among its members well-known musicians from all parts of the United States and Europe.

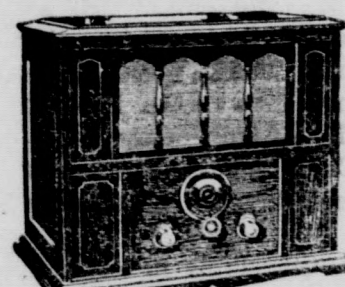

Interest in the Bowl concerts this season is keen and wide spread, if the crowd of 20,000 who attended the dedication on June 22 can be taken as a criterion. According to Raymond Brite, manager of the Bowl Association, there has been an unprecedented demand for season ticket books for the regular summer concerts, which will be given from July 6 to August 28.

"Are you Hungary?"
"Yes, Siam."
"Denn Russia to the table and I'll Fiji."
"All right, Sweden my coffee and Denmark my bill."

Press Building Opposite P. E. Station

Entered as Second Class Matter at the post
office at Sierra Madre, California, under
the Act of March 3, 1879

THE CITY HALL QUESTION

SIERRA MADRE needs two things badly—larger quarters to house city offices and fire-fighting equipment, and some means of covering up the old firemen's club ruin on Central Avenue. On both counts Sierra Madre is paying heavily already. It is natural to seek a single solution for both problems by proposing to build a city hall on the lot at the corner of Central Avenue and Windsor Lane.

People admitting the need for a city hall bring up two divergent ideas. One group declare the city should erect a building of monumental character, which would be sufficiently creditable in size and architecture to be an advertising asset to the city. Such a building with necessary additional land would probably cost \$50,000 or \$60,000. The other group look at the high city tax rate and take a more thrifty view of the situation. They say ample quarters for all city needs could be provided on the lot already owned, in a building which would be no disgrace to the city, at a cost not to exceed \$15,000 or \$20,000.

Success for a city hall bond issue would hinge on the possibility of getting enough of these two groups to agree on a program to assure two-thirds of the votes to be cast. Any weakness in the program would make it comparatively easy to muster enough votes to defeat the project at the polls.

Opposition to a city hall bond issue seems likely to consist of three elements: First those who oppose any bond issue for any purpose on general principles; second, the disgruntled ones out of either of the groups named above; third, those who anticipate an early opportunity to annex to Pasadena. The last named group see Pasadena growing rapidly toward Sierra Madre and realize the annexation question will have to be decided. They do not fancy the prospect of joining Pasadena within the next five or ten years, and continuing to pay for a Sierra Madre city hall for thirty years thereafter. Incidentally, the action of the city trustees in raising the water rates has not generated any great degree of enthusiasm among water users toward further municipal expenditures.

Success for a city hall bond issue, however, is not impossible. It will depend largely on the policy followed in presenting the program to the voters. To reconcile the divergent elements who favor some kind of city hall, will require definite plans which combine attractive design with practical merit. In other words, the voters will want very positive assurance that they are going to get their money's worth. If additional land is to be bought, the voters will want to know the price to be paid. This information, for some reason, is not now available. In other words, put all the cards on the table so the voters will know they are neither investing in a poker game nor a pipe dream.

PAYING WITHOUT GETTING

WE rent a house. The landlord takes our rent money and pays off the loan he incurred to build the house. We buy a house for him. We pay for a home we do not get. It is easier to pay rent than to make the sacrifice necessary for buying a home, so we pay rent.

If you own a house and it needs painting, you will pay for the painting whether it ever goes on the house or not. Every day you neglect having it done the house deteriorates somewhat and eventually the amount of deterioration will equal the cost of the painting. You will have paid for the paint job without getting it. Also, the fact that your house needs painting, affects to some extent every other piece of property in your neighborhood. Not only you, but all your neighbors, are paying for the painting which your

house needs. As the months roll by the cost of that paint job is paid for many times.

When one goes into a district and notices that the houses need painting more or less, need new steps, new porch posts, new porch floors and other repairs, one cannot help wondering how much that district has already paid for the work that is needed but still undone.

Consider the case of a badly kept-up street or road in a heavily traveled section. The amount which motorists lose through avoiding that thoroughfare—extra mileage, wear of tires, etc.—and the extra wear upon vehicles that are forced to use it, would, in the course of a year, pay many times for putting it in a perfect condition. Business, property owners, motor owners and others pay over and over the cost of an improvement which they do not get.

A railroad places a watchman at a street crossing instead of making a subway beneath the tracks. Even with a watchman there accidents occur and the watchman's salary goes on. In a comparatively short time the railway pays the cost of making a subway, without having it.

The taxpayer in opposing a needed improvement sees only the tax. He does not see the loss of business, deterioration of property and other effects which failure to provide the improvement costs him. He is likely to congratulate himself on defeating a tax, while at the same time an amount greatly in excess of the tax is going out of his pocket or failing to seek his pocket.

YOUR RED CROSS

ONE year ago on June 29 the whole world was stunned by the news of the Santa Barbara earthquake disaster. Eleven lives were lost and great destruction of property resulted. With characteristic American generosity the sympathy of the country poured out in offers of assistance. Old and newly created organizations were galvanized into activity, funds were raised and wisely placed and today Santa Barbara is practically rebuilt, many of its buildings after the Spanish or Mediterranean style of architecture, and this has added to the charm of one of the most beautiful spots in the West.

Again Red Cross country-wide organization demonstrated its necessity and efficiency. Within an hour after the first shock a Red Cross canteen was in operation and first-aid stations were established by Santa Barbara Chapter of the American Red Cross. Then between midnight and dawn an auto stage slipped into Santa Barbara carrying a Disaster Relief Unit of the American National Red Cross under command of the assistant national director of disaster relief.

While others were still talking in terms of the millions lost, these experienced, practical people began ministering to the disaster-caused needs of the families affected, whose loved ones were injured or whose homes were destroyed or damaged. Sympathetically, yet with thoroughgoing system, each such family actually needing assistance was given it whether that need was for the rebuilding of the home or for food, caused by unemployment resulting from the disaster, or what not.

A year later the Red Cross is enabled to give a complete report of its activities at Santa Barbara—and to give it with perspective. The report shows that until December 10, 1925, checks from the Red Cross Relief Fund were being issued to those who needed them. Experienced disaster workers from San Francisco, Los Angeles and Santa Barbara had for five and a half months been examining, not into the losses of families, but into their needs, and had administered aid in proportion.

A total of \$75,293.91 was disbursed during the operation. The needs of 730 families were looked into, and in 373 of these cases, houses were rebuilt or repaired, tools and equipment furnished, medical expenses met, furnishings granted, clothing supplied, and enough cash given to place the deserving ones on their feet. The report shows that among the grants were seven trust funds whereby needy widows and orphans, made such by the disaster, were assured a regular income during their dependency. One such trust fund extends over a period of ten years.

Truly, in the words of Dr. Henry S. Pritchett, president of the Carnegie Foundation, "It is a matter of the greatest good fortune to the country that there is ready this great organization, trained to deal with the circumstances of communities in the midst of disaster, and to do its work thoroughly and effectively and yet with no lack of sympathetic and kindly attention."

Reservations

By J. R. E.

In the hour of distress and misery the eye of every mortal turns to friendship; in the hour of gladness and conviviality, what is our want? It is friendship. When the heart overflows with gratitude or with any other sweet and sacred sentiment, what is the word to which it would give utterance? A friend.

—Landor.

The happiness in the kolm conductor's family would not be complete if we did not take this first opportunity to express deep appreciation for the many kind expressions of friendship we have received in our new home, especially since THE arrival.

Cool, clean hospital walls; kindly, smiling nurses and attendants—life for mothers nowadays is more pleasant than in the years gone by. Nowhere, perhaps, is the value of a smile and a kindly word more evident than in a hospital or a sick room.

The only sober countenance one sees in the hospital is that of the Jap elevator boy. He is very serious, always. Much of it is diffidence, but he also seems to have ambitions above "going up and coming down." He has been reading "Steele's Sciences" for several days past; it is not a large book and he is not reading it through in a hurry. I wonder what he thinks as he reads?

It's funny; the baby is a week and a half old and it hasn't said "Daddy" yet. I wonder what can be the matter? I'm afraid she'll be a flirt. At least she has very, very expressive eyes. She yawns just like her daddy. Laugh that off.

How not to bring up children: A father and his five-year-old son enter a drug store; I expected "daddy" was going to buy the kiddy some ice cream. He didn't. He ordered a 'coke'; told the boy he couldn't have anything—too near dinner time. "It isn't good anyhow," he said. "Why do you drink it, Daddy?" "Oh, it gives me pep." I think I'd have waited until dinner time, myself; or if I just HAD to have a drink, I think I'd have sneaked out the back door. I wonder what kind of a man that boy will grow up to be?

A request is made that friends of visiting editors attend a picnic at Sycamore Park Saturday, "and bring enough food for one editor." "Friends" will be wise to load the food on a truck, if they wish to follow the instructions literally.

I'll bet all those editors will wish they had a baby girl like ours.

"Have you read 'Excelsior'?" "No, but I have some yellow shredded wheat."

From the Old News Files

1907

The last meeting of the Ladies' Musical Club was held at the home of Mrs. C. W. Hill and officers were elected for the ensuing year as follows: President, Mrs. C. H. Baker; vice-presidents, Mrs. H. Ivor Thomas, Miss Harriet Marvin; secretary, Miss Marie Caskey; treasurer, Miss Lenore Morgan; librarian, Miss Maybelle Caley; choristers, Miss Hazel Hill, Miss Climie; accompanists, Miss Alta Rice, Mrs. Laura Stevenson.

Mr. and Mrs. C. K. Hoffman and Mr. and Mrs. E. A. Hoffman entertained a large number of guests at a "house warming" in their new home on Central avenue west of Sunnyside.

Pasadena school district increased the pay of teachers from \$720 to \$900 a year, and the pay of principals from \$1200 to \$1400. The population was estimated by the directory publishers at 27,000.

1916

Miss Beatrice Ward, daughter of Mr. and Mrs. Irving N. Ward, was awarded a scholarship in the Stickney Memorial school of art in Pasadena.

The engagement of Miss Elida Olsen, daughter of Mr. and Mrs. Martin Olsen, to Mr. Jack Goodwin of Inglewood, was announced at a family party at the Olsen home.

Charles Hull entertained a number of young friends on his seventh birthday anniversary.

Miss Frances Bergen, daughter of Mr. and Mrs. C. C. Bergen, was married to Mr. Robert Lamberson of Randsberg, the ceremony being performed in the Congregational Church by Rev. A. Ray Moore of Los Angeles.

WHAT CANARIES LIKE

Canary seed alone does not furnish a balanced feed for canaries, but in combination with hemp and summer rape it forms a good ration. Much of the rape seed put up and sold in cartons is of a kind that even wild birds do not eat because of its pungent and bitter flavor, says the United States Department of Agriculture, but all birds relish the mild taste of true summer rape.

ROTATION MEANS FOOD

The rotation of crops is nearly as effective in increasing soil productivity as is the use of farm manures and complete fertilizers, as based on experimental yields of wheat, corn, and oats, taken collectively. When rotation and the use of fertilizers are practiced together the one practice adds to the benefits of the other, and increased yields are greater than from either practice alone.

Rabbit Will Hold Sway at Azusa Rodeo

One of the outstanding developments of the Pacific Coast rabbit industry will take place July 3, 4 and 5 in a three-day celebration and open house at Azusa.

"Azusa Gardens," sponsored by the National Association of Rabbit Industries, a \$25,000 Spanish inn, featuring rabbit dishes and complete displays of rabbit products, will be opened in the evening of July 3 with a good-fellowship banquet. The Packard orchestra will dispense music and there will be entertainment galore. Interesting but brief, speakers will figuratively break a bottle over the bow of the new "ship" and bid it Godspeed, and there will be dancing.

On July 4, the formal opening of the Azusa Fur Farms, located at Azusa Gardens, will be given by the proprietors, Messrs. Collins and Adams, and they have promised lectures by Judge C. S. Gibson and other authorities. A fur garment style show will be given and hundreds of imported fur rabbits will be on exhibition. During the afternoon, the Packard Orchestra will present a concert, but there will not be Sunday dancing.

Great Legion Rodeo

July 5, the Canyon City Post of the American Legion will put on the great Legion rodeo, opposite Azusa Gardens, from 1:30 to 5 p. m. At 7:30 p. m., the Azusa boosters and the American Legion will stage a dinner-dance on the floor of Azusa Gardens. A real evening is promised by the Azusa Chamber of Commerce and delightful music and a satisfying banquet are assured. Parking space for 1000 autos has been provided on the Foothill Boulevard at Virginia avenue, just west of Azusa.

These three days of fun and enjoyment in celebration of the permanent step in presenting the rabbit industry to the general public, by utilizing and merchandising the products of the rabbit, are really just a prelude to the greater developments being planned and put into execution at the Azusa Gardens.

On a contiguous tract of land, the National Association of Rabbit Industries is arranging for the erection of a modern, permanent dressing and canning plant, for the complete economic utilization of rabbit meat and its by-products, fresh, refrigerated and canned. The pelts will be dried in specially designed lofts and graded and sorted before being dressed or shipped to other markets.

Research Laboratory

A research laboratory will be maintained and a factory for turning the best quality of furs into garments and other seasonal merchandise are included in the plans. In other words, a complete plant will be worked out that will act as a constant stabilizer in the local industry.

The vast extent of the California rabbit industry is little realized, but when it is proved that at least 32,000 head are consumed

Many Thrills On the Bill At Wistaria

Advance reports tell us that Richard Dix's latest Paramount picture, "Let's Get Married," which closes the week at the Wistaria Theater is good. They say it is a gay comedy that starts at sixty miles an hour and gets faster every foot.

We are asked to imagine rollicking Richard as a wild young man whose lovely fiancée threatens him with the gate if he gets into any more scrapes. Innocent, he is caught in a raid on a cabaret and is sent to jail for thirty days. He tries, by means of letters, to convince her that he is selling hymn books to South Sea cannibals, and his tale almost works until—but then, you had better see "Let's Get Married."

Dolores Costello, who became a screen star over night, due to her performance as the heroine of "The Sea Beast," with John Barrymore, comes Sunday and Monday in her new Warner picture, "Bride of the Storm," a J. Stuart Blackton production. The story, adapted by Marion Constance from James Francis Dwyer's "Maryland My Maryland," deals with an American girl shipwrecked off the China coast and brought up by three Dutch lighthouse keepers. It is a thrilling and spectacular melodrama.

"Seven Sinners," a Warner Bros. Classic of the Screen, with Marie Prevost as star, comes Tuesday and Wednesday. The new picture is an original story by Lewis Milestone and Darryl Francis Zanuck directed by Mr. Milestone. The plot deals with seven burglars who enter a country mansion separately and become marooned there thru a quarantine. It is said to be one of the most amusing comedies of the season.

"The Girl from Montmartre" in which Barbara La Marr and Lewis Stone are co-starred, is a film adaptation of "Spanish Sunlight," which enjoyed tremendous vogue as a "best-seller." Anthony Pryde is the author, and Eve Unsell did the screen transcription. It will be shown Thursday only.

in the environs of Los Angeles alone each week, and that the country at large uses more than 100,000,000 rabbit pelts per year, it must be understood that here is one of the flourishing minor agricultural pursuits, especially adapted to Southern California conditions. From small beginnings, the industry is gradually crystallizing into great achievements, such as the Azusa Garden plants, both actually in operation and in the course of construction, and the whole country acknowledges that the Pacific Coast is the dominating leader in the industry.

Visitors are expected during the three days from every section of the coast and everyone will be welcome and carefully shown thru every portion of the inn and plant. Everyone interested in the rabbit industry is invited to get acquainted with one of the liveliest developments in Southern California.

All Around the Town

Dr. Marie A. Everett of 153 Santa Anita Court has just returned from a two weeks motoring trip, accompanied by her guests, Mrs. Cora Carroll and B. A. Macomber of Boston, Mass. Their itinerary included Yosemite National Park, Mariposa Big Trees, Oakland, San Francisco and Sacramento, going via the inland route and returning via the coast route, via Carmel, Monterey, 17-mile drive. While in Oakland they were guests of Dr. Everett's sister, Mrs. Joseph Fielding of Chabot Road. On Saturday Mrs. Carroll and Mr. Macomber were guests of honor at a beautifully appointed dinner at the doctor's Josephine. Wakely and Mrs. Jane Maxwell of Commonwealth avenue, Hollywood. Mrs. Carroll left for the east July 1, after a very delightful winter spent traveling fifteen thousand miles through the Golden State by motor.

M. A. Hawkes of North Hermona avenue will start July 5 for an extended trip in the east. He will visit his children in Chicago and New York City; also the Sesqui-centennial at Philadelphia, and friends on Prince Edward Island, returning via Montreal and the Canadian Rockies about October 31. The News joins with his many friends in wishing him a very pleasant journey and safe return to beautiful Sierra Madre, and would suggest he take his "rabbit's-foot" with him.

R. W. Gray of Ventura was in the city Wednesday for a short visit with Joe Eastwood. Mr. Gray was en route home from a visit to his former home at Watertown, South Dakota. On the trip east with Mrs. Gray and two children, they met with disaster near Salt Lake City when a "wild" motorist side-swiped their car, putting it out of commission. They continued east on the train, and returning the family continued on to Ventura while Mr. Gray drove the car through.

The home of Mr. and Mrs. Harvey Steinberger was the scene of a merry dinner party Saturday night in honor of Mr. and Mrs. W. E. Doty. Covers were laid for sixteen and the evening was spent at bridge. On Monday night the same company enjoyed "Top-sy and Eva" at the Mason opera house as guests of Mrs. Edna Yerxa.

Mr. and Mrs. Albert Wheeling and daughter, Ruth, Mr. Daniel Shaffer and Mrs. S. E. Houtz left Thursday for a month's motor trip in the north. They plan to spend some time at Clear Lake in Lake county. Then they will drive across the state to Lake Tahoe. On their southward journey they will visit Mono Lake and the fine camping spots along the east side of the High Sierras.

VITAMINES AND TIN CANS

It is well known that cooking destroys much of the value of those curious health-giving chemical compounds in food called vitamins. So it has been assumed that the process of canning did the same. But Dr. Eddy of the Teachers' College of New York has proved that canning vegetables like spinach and tomatoes does not destroy the valuable vitamin C, which protects against scurvy. Dr. Eddy believes that it is oxidation rather than heat that affects the vitamins, and vegetables or fruits cooked in cans are exposed to oxygen much less than in open cooking.—Youth's Companion.

WEIGHT OF FLEECE

The weight of a fleece is influenced both by density and by length of staple. Recent studies by the United States Department of Agriculture show that length of staple offers more of a leverage for increasing wool yields than density.

NOTICE TO BIDDERS

The Sierra Madre City School District of Los Angeles County, California, will receive sealed bids for supplies as per detailed list on file in the office of the Board of Trustees in the Kindergarten Building, 161 West Highland Ave., Sierra Madre, California. Bids to be opened in public July 13, 1926, at 7:30 o'clock A. M. in the office of the Board of Trustees. The Board reserves the right to reject any or all bids, or parts of bids.

Low Rates To Beaches Start Sunday

Announcement of sweeping reductions in week-end fares from 29 interior points, both to Los Angeles and all beach resorts served by the Pacific Electric, was made today by D. W. Pontius, vice-president and general manager of the railway. The reduced week-end rates effect a fare reduction approximating 35 per cent and in some cases the saving is even greater. The rates will be effective beginning July 3rd and each week-end thereafter throughout the summer season.

The management announces that these excursion fare tickets may be obtained only from its regular station agents and will not be sold by conductors on trains. The tariff provides that going trip may be made either on Saturday or Sunday of each week with Monday following date of sale as return limit.

During the past several years the Pacific Electric has had in effect summer excursion fares to beaches from interior points but this year the reduced rates are also effective to Los Angeles from many of the larger points on the system.

The round trip week-end fare above referred to from Sierra Madre to Long Beach, San Pedro, Seal Beach, \$1.00; to West Coast Beaches (Santa Monica to Redondo Beach \$1.00, and to Newport Beach-Balboa, \$1.25.

Mr. and Mrs. W. E. Doty were guests of honor at a picnic given on Sunday at Brookside Park, Pasadena, by the employees of the Los Angeles branch of the Washburn-Crosby Milling Co. In anticipation of Mr. Doty's departure to take a higher position with the company in the east, the co-workers presented him a handsome gold pen and pencil set.

Mr. and Mrs. Elmer A. Green and their son, Hammond, and Miss Louise Kellogg of Boston, Mass., are leaving on Saturday for Del Monte and San Francisco. Hammond Green is entering the Citizen's Military Training Camp at Del Monte for a month.

Dr. and Mrs. Albert Watson of 24 South Burlington, Los Angeles, are the parents of a son born Wednesday, June 24. Mrs. Weston was formerly Miss Edith Steinberger, daughter of Mr. and Mrs. L. E. Steinberger.

Mr. and Mrs. Frank E. Cox and family spent Sunday at Seal Beach. While swimming in the surf Fred Cox had a painful encounter with a stingray from which he suffered intensely for several hours.

Mr. and Mrs. Henry Dolph left on Tuesday for a lengthy vacation trip to their former home in Portland, and other places in Oregon and Washington.

Washington Street Link Is Proposed

Plans are going forward rapidly for the widening of Washington Street in Pasadena and the construction of a bridge over the Arroyo Seco connecting Washington Street with Linda Vista Avenue, according to P. J. Hayselden, executive secretary of the San Rafael Hills Association.

This development is of vital importance to the foothill cities and the San Gabriel Valley generally. The Washington Street development will connect with Chevy Chase Drive through Glendale into Los Angeles, a thoroughfare which will shortly become one of the major highways.

Communities Co-operate

Hugh Pomeroy, secretary of the regional planning commission, addressed a meeting in City Engineer Earl's office in Pasadena, discussing at length the steps to be taken to hasten this improvement, and the best methods to be employed. Property owners, city engineers of Pasadena, Glendale and the foothill cities, civic and commercial associations were present at the meeting, representing all the interested parties.

Present plans for Washington Street improvement call for a 70-foot dedication through Pasadena, connecting to the east with Central Avenue to Sierra Madre. Secretary Pomeroy has suggested that studies be made with a view to making the improvement 100 feet, a major traffic artery. This would seem advisable, Pomeroy states, because of the important connections north and south that will shortly be completed, which will pour additional traffic into Washington Street.

Heavy Traffic

"Washington Street now carries more cross-town traffic than any other thoroughfare except Colorado Street," Pomeroy stated, and it would be too bad to complete a 70-foot improvement only to find the street too narrow and another widening operation necessary immediately. Two bites at a high-way cherry are terribly expensive, better to do the job right in the first instance."

At Mr. Pomeroy's suggestion a committee was appointed to effect a permanent organization and make a complete study of the Washington Street situation, considering the width most advisable, possible assessment district, costs of proposed improvements, legislative steps to be taken, traffic and other matters that must be considered before preliminary engineering work can be undertaken. Among those present at the meeting were C. Victor Sturtevant, chairman of the boulevard committee of the Pasadena Realty Board; C. L. Wright, chairman of the Chamber of Commerce boulevard committee; C. R. Jones, president of the Monrovia Planning Commission; Warren C. Earle, city engineer of Pasadena; John F. Johannsen, engineer of Glendale, and representatives of six improvement associations.

DON'T WOUND PLANTS

Avoid wounding or breaking plants when cultivating or working around them. In harvesting fruits and vegetables to be stored, avoid bruising, as decay most frequently begins where the protective covering is broken. Certain insects, such as the potato tuber moth, gain access at points of injury.

INSIDE INFORMATION

A sprig of mint is good with peas or lima beans. Do not use soda in making cream of tomato soup. It changes content. The flavor and affects the vitamin. Paradichlorobenzene is effective as a moth repellent and may be used just as naphthalene flakes are used.

A little boy who was very much puzzled over the theory of evolution questioned his mother thus: "Mother, am I descended from a monkey?" "I don't know," the mother replied. "I never knew your father's people."—Success Magazine.

ORDINANCE NO. 301.
AN ORDINANCE OF THE BOARD OF TRUSTEES OF THE CITY OF SIERRA MADRE CREATING A WATER DEPARTMENT FOR SAID CITY AND ESTABLISHING WATER RATES, AND REGULATIONS FOR THE USE OF WATER THEREIN, FIXING A PENALTY FOR THE VIOLATION THEREOF, CONTINUING IN EFFECT ORDINANCE NO. 292 AND REPEALING ORDINANCES NO. 234 AND NO. 262, ON THE SAME SUBJECT.

JET, AND ALL OTHER ORDINANCES AND PARTS OF ORDINANCES IN CONFLICT THEREWITH.

The Board of Trustees of the City of Sierra Madre do ordain as follows:

SECTION 1. A Water Department of the City of Sierra Madre is hereby created which shall have charge of the operation, maintenance and repair of the water system of said city, subject to the control of the Board of Trustees of said City.

SECTION 2. There shall be a Superintendent of the Water Department, and also an Auditor of said Water Department, to be appointed by Resolution duly passed by said Board of Trustees and which said Resolution shall also fix the salary or compensation to be paid the appointees therein named and such appointees shall hold office during the pleasure of said Board.

SECTION 3. The duties of such Superintendent shall be to conduct such water department subject to the control of said Board of Trustees and to enforce the provisions of this ordinance, and generally to do and perform such duties as the Board of Trustees shall by ordinance or otherwise direct. The Auditor of said water department shall keep all the accounts, books, minutes, and records of said department and shall render and collect all bills therefor. He shall promptly pay into the treasury of said City the proceeds of all collections made by him and shall report the amount of such collections and deposits to the Board of Trustees at the first regular meeting of said Board in each month, together with a list of all delinquents.

SECTION 4. All moneys received by the City Treasurer from the Water Department shall be credited to a "Water Revenue Fund." All moneys shall be paid out of such fund upon warrants duly drawn thereon in the manner provided by law.

SECTION 5. The City of Sierra Madre, for water supplied from its water works system, and as compensation for making and maintaining water service connection, placing itself in position to supply, and maintaining its readiness to supply, water to consumers, shall charge and collect monthly rates as follows:

For 500 cubic feet, or less, \$1.50.
For the next 1,000 cubic feet, or less, per 100 cubic feet, 10 cents.
For the next 1,500 cubic feet, or less, in excess of the first 1,500 cubic feet, per 100 cubic feet, 7 cents.

For each 100 cubic feet in excess of the first 3,000 cubic feet, 6 cents;

Provided, however, where the meter installed is larger than a three-quarter inch meter, the minimum monthly charge for such water connection shall be as follows:

1 inch meter, \$1.75
1 1/4 inch meter, \$2.00
1 1/2 inch meter, \$2.25
2 inch meter, \$2.50
3 inch meter, \$3.25

Where more than one separate consumer is served through a meter in excess of a five-eighths meter, only one such minimum in excess of \$1.50 minimum shall be charged.

SECTION 6. The Water Superintendent may permit more than one place of business using small quantities of water mainly for lavatory and drinking purposes to be served through the same meter when in his opinion special conditions justify such service; and in all such cases a minimum monthly meter rate shall be charged for each separate place of business so served, of not less than \$1.50 per month.

If, any meter readings for such places of business show any excess over the amount of accumulated minimums a pro-rate charge shall be made of such excess to each place of business served through such meter.

SECTION 7. The following flat rates shall be charged and collected by the water department for temporary service as follows:

Water for each barrel of lime or cement, 5 cents.
Wetting brick per 1000, 10 cents.
Water for setting sewer or pipe trenches per lineal foot, 1 cent.
Water for trenches for ornamental lighting per lineal foot, 1/2 cent.

Water for cement curb for each 100 lineal foot, 30 cents.
Water for cement walk for each 100 square feet, 15 cents.

SECTION 8. The Water Superintendent may permit more than one consumer to be served through the same meter when, in his opinion, special conditions justify such service, and in all such cases a minimum monthly meter rate shall be charged for each separate dwelling house, tenement, or premises so served of not less than \$1.50 per month.

The water superintendent shall, in all such cases, require a written guarantee for the payment of all water so furnished, from a responsible property owner in the City of Sierra Madre.

The water superintendent may, in his discretion, order the discontinuance of such joint service at any time.

SECTION 9. No allowance or rebate shall be made from the regular rates herein specified whether water has been actually used or not unless the Water Department has been notified in writing by the owner of the premises to remove the meter installed for such premises, and thereupon, after the expiration of the current month subsequent to the last meter reading by the Water Department of such meter no further monthly minimum charge shall be made against such premises; and the Water Department shall charge and collect for re-installing a meter for such premises upon receiving written application of the owner therefor, the sum of \$5.00 for such re-installation.

Where more than one consumer is being served through the same

meter and it is not practicable to shut off the water at the meter on account of such joint service, then the Water Department must be notified in advance in writing of when any particular use through such meter is to cease, and also in like manner when such use is to be resumed, and if such notice is not so given full minimum rates shall be charged and the Water Superintendent may for failure to give any such notice discontinue such joint service.

SECTION 10. All meters shall be read by the Water Department monthly and all bills for water shall become due and payable at the City Hall on the reading of the meter.

If paid on or before the 15th of the next succeeding month a cash discount of 25 cents shall be allowed on each minimum.

All water bills remaining unpaid on the 15th of such month shall thereupon become delinquent and the water may be shut off without further notice.

The Water Superintendent may, in his discretion, cause a meter reading to be made at any time and thereupon the bill for water used since previous reading shall become immediately due and payable.

SECTION 11. All water rates shall be charged against the property on which it is furnished and against the owner thereof and if for any cause any sums owing therefor become delinquent the water may be cut off and in no case shall it be turned on to the same property until all such delinquencies shall have been paid in full.

On failure to comply with the rules and regulations established as a condition to the use of water or to pay rates or meter rent or any charge or penalty imposed under the terms of this ordinance the water may be shut off until payment of the amount due is made, with One Dollar in addition for expense of turning water off and on.

SECTION 12. The Water Department shall have the right in its discretion to require a deposit in advance as a condition precedent to furnishing water service in an amount not exceeding the estimated charge for water to be furnished for two months use, but not less in any case than three (\$3.00) dollars.

SECTION 13. Whenever there is available a surplus gravity flow of water the Board of Trustees may dispose of the same on special terms for a limited period and for temporary use subject to all the existing obligations of said City to furnish water for domestic use and for irrigation purposes.

SECTION 14. Distribution and time of allotment of water for irrigation purposes shall be under the control of the Water Superintendent.

Every person desiring a run of water for irrigation purposes must register with the Water Superintendent. Such registration shall specify the property and acreage to be covered, may indicate a preference as to time and quantity of water desired, and shall obligate the irrigator to accept water in the quantities so indicated and at such times as the superintendent may direct, subject to the superintendent's right to limit the quantity of water as the supply may require.

SECTION 15. All water meters shall be furnished by the Water Department without expense, except as provided in this ordinance, and shall remain the property of the City, and shall be maintained, repaired and renewed when unserviceable through fair wear and tear thereof; provided, that whenever replacements, repairs, or adjustments of any meter are rendered necessary by any act, negligence or carelessness of the consumer or anyone in privity with him, any expense thereby caused to the department shall be charged against such meter service and collected from the consumer in the same manner as the water rate for such service.

SECTION 16. Upon demand in writing and the deposit of \$1.00 by a consumer he may have his meter examined and tested by the Water Department for the purpose of ascertaining whether or not it is registering correctly. If the meter shall be found to register three (3%) per cent more water than actually passes through it, another meter shall be substituted therefor and the \$1.00 deposit refunded and the water bill for the current month adjusted in such an amount as the Water Superintendent shall deem fair and just; otherwise the deposit shall be retained by the City to pay the expense of testing same.

SECTION 17. When a meter fails to register or registers inaccurately the charge for the month in question shall be based upon an estimate made by the Water Superintendent of the amount of water used through such service.

SECTION 18. Approved check valves shall be installed at the expense of the consumer on the property side of the water meter where necessary for the safety or protection of the water system or the appliances thereof, or of the consumer, and the City of Sierra Madre shall not be liable for any damage caused by high water pressure or variation of the same.

SECTION 19. No person shall be entitled to a water connection until the owner of the premises shall make application for a service connection on a form provided by the Water Department.

SECTION 20. Applications for connections must be accompanied by the service connection fee to pay the expense of making such connection, and which is hereby fixed as follows:

5/8 inch meter, \$20.00
3/4 inch meter, \$25.00
1 inch meter, \$30.00
1 1/2 inch meter, \$45.00
2 inch meter, \$65.00

Provided the said connection charges shall only be construed to pay for running the connecting pipe from the water main a distance of not exceeding 40 feet to within the curb line of the property to be served, and any connecting pipe necessary to be laid a longer distance shall be paid for at the rate of actual cost of making such connection, plus 10 per cent for overhead expenses, and all of such charges shall be deposited in advance before such connection is made.

SECTION 21. No by-pass or connection between the meter and the main shall be made or maintained except upon written permission of the Superintendent which shall only be given in the case of fire protection or irrigation service. It shall be unlawful to use any such by-pass for any other purpose than that for which it is installed. It used for any other purposes or (save in case of fire) at any other times than allowed by the Water Superintendent there shall be charged and collected for such service amounts equal to double the ordinary charge for water.

SECTION 22. It shall be unlawful for any person to draw water from any city pipes directly into any stationary steam boiler, hydraulic elevator, power pump, or similar apparatus.

SECTION 23. It shall be unlawful for any consumer without the written consent of the water superintendent to supply water to any person, firm or corporation, other than the occupant or occupants of the premises of such consumer, or to permit any unauthorized use of water through any meter installed for the use of such consumer.

SECTION 24. It shall be unlawful for any person to use fire hydrants for any purpose other than extinguishing fires without a written permit from the Water Superintendent to be issued in his discretion in proper cases.

SECTION 25. All water outlets and all continuous streams of water in use must be shut off promptly upon an alarm of fire being given, and shall not be turned on again until the fire occasioning such alarm shall be extinguished.

SECTION 26. The Water Department shall be given credit on the books and accounts thereof, at the regular water rates, for all water furnished to the City and its various departments and the City and such departments shall be charged with the amount of such credit so given.

SECTION 27. In case any authorized employee of the Water Department be refused admittance to any premises during reasonable hours, or being admitted shall be hindered or prevented from making an examination of the water fittings or connections the Water Superintendent may cause the water to be turned off from said premises after giving twenty-four hours written notice to the owner or occupant of said premises of his intention so to do in the event of such continued refusal or interference.

SECTION 28. In case of emergency the Water Department shall have the power to turn off water from mains and pipes of the system, without notice. In all other cases the Superintendent shall give reasonable notice of such turning off to consumers likely to be affected.

SECTION 29. It shall be unlawful for any person to open any fire hydrant, stop-cock, gate valve, or to meddle with any street service, water connection, or any water meter attached to any service pipe connected with the water mains or water pipes of said city, or to turn on or off water in any water mains or water pipes of said city, or to tap, break or injure any water main or water pipe of said city laid in any street, avenue, or alley or other public place, or any reservoir of said city or to tap any water service pipe between the point of connection with the said main and the meter placed on such pipe, or to take or draw water from any water main, pipe or hydrant of said city in any manner not authorized by this ordinance.

SECTION 30. That any person, firm or corporation violating any of the provisions of this Ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punishable by a fine of not more than One Hundred (\$100.00) Dollars or imprisonment for a term not exceeding Fifty (50) days in the City Jail of the City of Sierra Madre or shall be punished by both such fine and imprisonment in the discretion of the Court, and the amount of any charge made by the City of Sierra Madre or said Water Department under the terms of this Ordinance shall be deemed a debt due to the said City of Sierra Madre and the person owing the same shall be liable to an action in the name of the City of Sierra Madre in any Court of competent jurisdiction for the amount of such charge, with costs of suit; and in addition thereto a penalty of Twenty-five (\$25.00) Dollars must be added to the judgment as costs to be collected from the defendant or defendants.

SECTION 31. That Ordinance No. 292 of the City of Sierra Madre entitled "An ordinance of the Board of Trustees of the City of Sierra Madre creating the office of Assistant Superintendent of the Water Department of said City defining the duties of such officer and providing for the appointment to such office and for fixing the salary or compensation thereof," adopted June 25, 1925, be and the same is hereby continued in full force and effect; and that Ordinance No. 234 of the City of Sierra Madre entitled "An ordinance of the Board of Trustees of the City of Sierra Madre creating a Water Department for said city and establishing water rates, and regulations for the use of water therein, fixing a penalty for the violation thereof, and repealing all ordinances and parts of ordinances in conflict therewith," adopted

March 27th, 1919, be and the same is hereby repealed; and that Ordinance No. 262 of the City of Sierra Madre entitled "An ordinance of the Board of Trustees of the City of Sierra Madre, amending Section 20 of Ordinance 234 entitled, 'An ordinance of the Board of Trustees of the City of Sierra Madre creating a water department for said city and establishing water rates, and regulations for the use of water therein, fixing a penalty for the violation thereof, and repealing all ordinances and parts of ordinances in conflict therewith,'" adopted August 10th, 1922, and all other ordinances and parts of ordinances in conflict with this ordinance be, and the same are, hereby repealed.

SECTION 32. The City Clerk shall certify to the passage of this Ordinance and its approval by the President of said Board and shall cause the same to be published by one insertion in the Sierra Madre News, a weekly newspaper of general circulation published and circulated in said City of Sierra Madre and the same shall thereupon be in full force and effect on and after the 24th day of July, 1926.

Adopted and approved this 24th day of June, 1926.

J. D. SPARKS,
President of the Board of Trustees of the City of Sierra Madre.
(SEAL)

Attest:
L. DIETZ,

City Clerk of the City of Sierra Madre.

I, L. Dietz, City Clerk of the City of Sierra Madre, do hereby

certify that the foregoing ordinance was duly adopted by the Board of Trustees of the City of Sierra Madre, State of California, and signed by the President of said Board of Trustees at a regular meeting thereof held on the 24th day of June, 1926, and that the same was adopted by the following vote:

Ayes, Trustees: Bacon, Belohlavek, Topping and Sparks.
Noes: None.

Absent: Trustee Tarr.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of the City of Sierra Madre, this 24th day of June, 1926.

L. DIETZ,
City Clerk of the City of Sierra Madre.

ACHIEVEMENTS

TWENTY years ago when A MAN drove into Sierra Madre IN AN automobile just ABOUT everybody rushed OUT to see the strange SIGHT and some of us SHOOK our heads and SAID the blamed things WOULD never be practical BECAUSE we'd never be ABLE to get the horses USED to 'em; and now AN AIRPLANE can buzz ALONG overhead and the GENERAL public will HARDLY take the trouble TO look up—and right in LINE with the progress OF THE time we want TO mention MINOX, an ANTISEPTIC—born of WAR and science, and RANKS with the AIRPLANE and the RADIO among our MODERN achievements AND adds much to THE comfort and pleasure of MANKIND.

Church News

News of Churches

News items concerning church services and other activities will be published under this heading without charge if brought to the News office by Wednesday morning. No standing notices will be run under this heading, as it is desired that all church news be timely.

Bethany Temple

9:30—Sunday School. 11—Worship and sermon by Dr. E. P. Lyon. "Duties and Opportunities of Citizenship."

6:30—C. E. meeting. Mr. Wallace Merrill, leader. A patriotic meeting.

7:30—Song service and sermon. Dr. Lyon. "Messengers of the King."

7:30—Wednesday, Church prayer meeting.

Christian Science

Corner Highland & Hermosa Ave. Christian Science Society of Sierra Madre is a branch of the Mother Church, the first Church of Christ, Scientist, in Boston Massachusetts.

11:00 a. m.—Sunday school. 11:00 a. m.—Sunday service, subject July 4, "God."

8:00 p. m.—Wednesday, testimony meeting.

Congregational Church

"Elements of Liberty" will be the topic of the pastor, Rev. A. O. Pritchard at the 11 o'clock service in the Congregational Church next Sunday.

Sunday school will convene as usual at 9:30, opening with a song service led by the school orchestra. During the summer months there will be no evening service.

Vacation Bible School has continued during the week with encouraging attendance and interest sustained at a high pitch. Mrs. Brockway, the superintendent, has been absent on account of the young people's conference at Pomona College, but will resume direction of the work next week. Monday being generally observed as a holiday, there will be no school session.

Three Means of Grace

A negro preacher walked into the office of a newspaper in Rockmount, North Carolina, and said: "Misto Edito, they is forty-three of my congregation which subscribe fo' yo' paper. Do that entitle me to have a ch'ch notice in yo' Saddy issue?" "Sit down and write," said the editor. "I thank you." And this is the notice the minister wrote: "Mount Memorial Baptist Church, the Rev. John Walker, pastor. Preaching morning and evening. In the promulgation of the gospel, the three books is necessary: The Bible the hymn book and the pocketbook. Come tomorrow and bring all three."—The Christian Register.

Out of the Game

"I guess Bill's checkered career is ended." "Why?" "He's in a striped suit now."—Boston Transcript.

State's rights is that celebrated doctrine to which the Senator will pledge his undying devotion as soon as the Government dredges a couple of creeks back home.—Detroit News.

The politician will find an excuse to get out of anything except office.—Norfolk Pilot.

We shan't take sides in Poland until one side comes out heart and soul for simplified spelling.—Bridgeport Star.

The supreme example of vanity is a parent trying year by year to make his child just what he is.—Peru (Ind.) Times.

An English father says that girls cause less anxiety than boys. Maybe to their parents.—American Lumberman (Chicago.)

Of course the Constitution protects free speech, but only the great American sense of tolerance protects free verse.—Beloit News.

A missionary probably has a hard time making savages understand why they should wear modern clothes.—Trinidad Picketwire.

You can't maintain State rights in a land where citizens are trained to be the other fellow's conscience.—Publishers Syndicate.

Young Folk Spend Week At College

Nearly 300 young people representing practically all of the Congregational churches in the Southern California Congregational Conference, are in session this week at Pomona College in the annual Claremont Young People's Conference, which opened Monday June 28 and closes July 4. There are 100 boys and 150 girls in attendance.

Nationally known speakers and prominent Southern California clergymen will speak at the conference, including Prof. C. S. Knopf, Los Angeles; Rev. A. D. Stauffer, Claremont; Rev. L. A. Wilson, San Diego; Rev. E. P. Ryland, Los Angeles; Rev. Paul Davis, Santa Barbara; Rev. E. D. Gaylord, Los Angeles; Rev. R. B. Larkin, Manhattan Beach; Mr. Geo. Gleason, Los Angeles; Mr. P. F. Schrock, Santa Ana; Rev. A. O. Pritchard, Sierra Madre; Rev. George F. Kennegott, Los Angeles; Mr. W. G. Pierce, Long Beach, and Rev. Holland F. Burr, Ontario.

Each day's program includes bible classes, special studies, mission courses, courses in training and leadership, and recreational features including lectures, dramas and stunts.

The conference is open to young people of high school, college and business ages. The delegates are housed in the two Pomona College dormitories, Harwood Court for women and Smiley Hall for men.

Any Pink Elephants, John?

John Williams, a tourist printer, is helping out on the Reporter this week. John is a good printer and a willing worker, and has seen some wonderful sights, while in St. Louis recently he seen a canary bird that whistled "Yankee Doodle."—From Indianola (Neb.) Reporter.

Mexican bandits have freed two Americans. It's no more than fair, considering what Americans do with bandits.—American Lumberman.

Now's a good time to take a census of the Republican party in Arkansas. The postmasters are in convention here.—Arkansas Gazette.

It is fine to speak well of the dead, but what shall we do about those who are dead and don't know it?—Boston Shoe and Leather Reporter.

A Washington lady weighing 330 pounds is charging her husband with cruelty by beating her and dragging her around the room. A beauty parlor would charge her a stiff bill for similar services.—Dallas News.

Evans Named For Race by Conference

W. E. Evans of Glendale was formally endorsed for the Republican nomination for congress at the conference of Republicans of the Ninth Congressional District held at Pasadena last Friday night. So certain was everybody that that program would be carried out that no other candidates permitted their names to go before the conference.

Absence of other candidates did not prevent the largely attended conference from developing great enthusiasm in behalf of the Glendale man. Mr. Evans is highly regarded in his home town where he has taken an active part in public affairs during the ten or fifteen years of his residence there. On account of the rapid growth of Glendale and the fact that the San Fernando Valley has never furnished the district representative in congress, he is expected to poll a very strong vote there. He is also said to have made a fine impression in his visits to various other parts of the district in recent months.

The platform upon which Mr. Evans will run is largely devoted to approval of the Coolidge administration. An active organization will begin at once to make an effective campaign in his behalf and the campaign preceding the August primary promises to be one of unusually lively interest.

Landreth's Platform

Harold B. Landreth, Republican candidate for Congress in the ninth district, stands unequivocally for the following:

1. The Boulder Canyon Dam in the Colorado River and the All-American canal for the Imperial Valley. The construction of this great water conservation, flood control and power project is termed by Landreth, "The epic of the Southwest."

2. Rigid enforcement of all laws, with special emphasis upon the Eighteenth Amendment and the Volstead Act.

3. Enlisting of the fullest federal co-operation for the development of the Long Beach-Los Angeles Harbor, that it may become the greatest port of the Pacific Coast.

4. Maintenance of an adequate protective tariff on all California products of agriculture and industry.

5. A comprehensive program of mountain development, including the building of highways and trails, water conservation, reforestation, fire prevention and flood control.

Mr. Landreth is taking his campaign directly to the voters at the August primaries without submission of his candidacy to a pre-primary conference or caucus. He believes that such conferences deprive the voters of their full privilege of selection, and violate the spirit of the direct primary law.

Randall In Active Fight For Congress

Choosing the day of the ninth district Republican convention, which convened in Pasadena, as the most opportune time, Charles H. Randall, former congressman and now Los Angeles city councilman, entered the congressional race as an independent candidate.

Mr. Randall's action had been expected and as he disclaimed all party affiliation, it is anticipated that he will make an effort to be nominated on all party tickets at the primaries as he has done before.

Announces Platform

His platform was given as follows:

"Boulder Canyon Dam built by the government, owned by the people and forever protected against exploitation by private power interests.

"Long Beach-Los Angeles harbor unification, where a world port, publicly owned, shall be built free from railroad domination in any way.

"Honest enforcement of the Eighteenth Amendment by friends of the law rather than nullification by its enemies, and its rescue from the evils of political influence."

Mr. Randall is the only independent progressive candidate who has entered the congressional race, his statement declared.

No Party Entanglements
"His legislative career has been marked by independence of all party entanglements and it is stat-

NEW PROGRAM FOR SUMMER

Beginning next Sunday, July 4, at the Church of the Ascension the following order of services will go into effect:

Choral Eucharist and sermon, 8 a. m.; Church School, 9:30 a. m. The 11 o'clock service is to be discontinued during the summer months (July and August.)

Holy Community on Thursdays, 9 o'clock instead of at 10 o'clock as heretofore.

It is hoped that parishioners will kindly note the new schedule and make the proper adjustment to the new program.

Dr. J. M. Masury has purchased from Emanuel Elser through the Thomas W. Neale agency 100 feet of frontage on E. Laurel Avenue adjoining the residence which he purchased a few months ago from Dr. Thomas Warden. Dr. Masury is a retired naval officer and expects to beautify the entire 200 feet which he holds on Laurel avenue and bring his wife and daughter out from the east to make their home.

John P. Rananahan is visiting a few days at the home of his parents, Mr. and Mrs. Peter Rananahan, 119 Auburn Ave. He has been in San Diego for some time with a crew of Western Electric Company men installing an automatic telephone system. After a brief vacation he will go to Fresno to assist in making a similar installation.

Mr. and Mrs. Robert Mitchell will have as week-end guests Mr. and Mrs. James B. Ludlow and Miss Berniece Ludlow of San Francisco and Miss Mary B. Ludlow of Los Angeles.

ed that during his six years of membership in congress he refused to attend any political party caucus," the statement continued.

"He was an outstanding champion of the dry law enactment and is joint author with Senator Shepard of the eighteenth amendment. The dries of California have asked his reelection and it is said that national dry organizations will throw large enforcements into his district in his support.

"As congressman, Mr. Randall was one of the earliest to push for Colorado river development and was directly responsible for the introduction and adoption of the Kincaid resolution which resulted in the famous reclamation service report of Arthur P. Davis, chief engineer, recommending a high dam to be built by the government.

"The extension of the harbor breakwater to the Long Beach terminus now under construction, was authorized by Mr. Randall's amendment to the Rivers and Harbors bill adopted by congress in 1920."

NEARLY FORTY YEARS IS LIFE OF LINOLEUM

(Continued from Page One)

through advertising in the Sierra Madre News. In number of entries received and inquiries concerning the contest it was highly satisfactory to the Sierra Madre Furniture Company. Many persons came in to ask questions about it who did not make actual entries.

In addition to these results, there were other tangible results from focussing public attention on linoleum as a floor covering. During the month's campaign the store actually sold more linoleum than it had ever done in a similar length of time.

RAISE FUNDS TO RESTORE CANYON POOL

(Continued from Page One)

move them over in the parkway, you to use our funds to pay the expense of this work.

We also feel that before the next rains that the city will be compelled to make or establish a channel through this pool, as this is strictly a city affair. Would it not be possible for you to co-operate with us and pool the issue, and thus bear part of the expense, as a municipality.

It comes to our attention in gathering these funds that a great many of the people feel that this is strictly a municipal undertaking but when we explain that for lack of funds you are unable to clean the pool, they contribute a little more cheerfully.

Place for Rocks

Again, the entire task of collecting these funds has resolved itself down to three ladies, who are doing this work for no ulterior motives other than to furnish the children of Sierra Madre with a swimming pool, which they have heretofore enjoyed.

Now we feel that having explained our ideas and our attitude to you in writing, shown you real money, and the wonderful spirit and the entire backing of the community, that you as representatives of this city, must co-operate, supervise, receive the bids, administer the funds, and in other words take charge of this work.

You must realize that three ladies who have actually done all this work to date, can not be expected to do the entire technical detail, nor is it within their province.

Trusting that you will give this your careful consideration, feel the urge to do your bit, open the pool, and do so without delay, we remain, yours very truly, Canyon Improvement Association.

Mr. and Mrs. M. W. Hull of South Pasadena are occupying the C. W. Jones residence at 49 East Alegria during the absence of the Jones and Tarr families on their Alaskan tour.

SHOWER FOR BRIDE ELECT

Miss Alice Stanley and Mrs. Stella Dennison entertained on Monday at the Norris home, 297 West Central, in honor of Miss Ruth Klemme. Covers were laid for twelve at a beautifully appointed luncheon table. Novel black and white effects in decorations and menu were very attractive. Bridge furnished a diversion for the afternoon, followed by a "personal shower" of many beautiful gifts for the guest of honor.

WINNERS ARE HONOR GUESTS

The home of Mr. and Mrs. Ben Medley was the scene of an enjoyable party Monday night, given by members of the American Legion Auxiliary. The local unit recently completed a spirited membership contest in which a team headed by Mrs. Ove Olsen was victorious over a team headed by Mrs. Medley. The latter were thus obligated to entertain the winners, which they did in royal style, with games and refreshments planned to make the evening as full as it was enjoyable.

Mr. and Mrs. Roland A. Adams and little daughter drove to Long Beach on Thursday where they have taken an apartment for a month.

Miss Mabel Appleby has purchased the J. W. Strickland home at 57 West Laurel Avenue where she will make her home with her mother, Mrs. J. E. Appleby.

Mrs. George Humphries who has been visiting her daughter, Mrs. Paul Baugh of Los Angeles, returned home Sunday.

Miss Mai Tully assisted by her music pupils gave an enjoyable piano recital at her home on Sierra Place Tuesday afternoon. Prizes for work done during the term were awarded to Hanna Gunnes and Robert Seimer. Refreshments were served and a pleasant social hour enjoyed after the program.

Public Work Is Now Done By Volunteers

Sierra Madre has a live Chamber of Commerce in spite of the fact that the organization is at present without a paid secretary. President Herman Hall and the board of directors wish the public to know that the organization is really functioning in almost every particular, just as it has in the past. The duties of the secretary's office are being performed by one of the directors for the present.

Dues, which have been a bugbear to some worthy residents in the past, have been reduced to \$10 a year. The old fee of \$20 was established on what seemed to be sound advice from expert organization workers. Some of the members and many on the outside felt the amount was prohibitive to a great many people who might like to participate in some degree in the work of the organization. In the hope that the lower dues would encourage a larger number of persons to become members and co-operate in the work, the directors decided to try the \$10 annual rate. Now those who have urged such a change will have a chance to show how strongly they were for it by joining or bringing in some other new member.

It is hoped the finances of the Chamber of Commerce will soon be in shape to permit the hiring of a secretary again. There are many letters of inquiry to be answered, and many other things which take time when the directors can hardly afford to spend.

Two weeks from today, Friday, July 16, the business men of Sierra Madre will enjoy a treat in the form of a talk by Paul Clagstone, manager of the western department of the United States Chamber of Commerce. He will speak at a luncheon to be given in the Masonic Temple at noon, to which all are cordially invited.

Through the agency of Thomas W. Neale, Mrs. Agnes B. Leighton has sold her home at 123 East Central to Mr. and Mrs. Charles P. Hatcher of Hollywood. They will bring their daughter and Mrs. Hatcher's mother, Mrs. Ellis, to make their home here.

Miss Marie Jenkins has been added to the office force of the Sierra Madre Garage.

As a rule the keynote in a campaign is the first one in the scale: "Dough."—Springfield State-Register.

Miss Wilda Lee Gilbert who has resided for some time at 115 North Baldwin Avenue passed away Wednesday noon. She had come here for her health and in her brave fight she suffered a severe blow in the unexpected loss of her mother only a few months ago. Funeral services were set for 2 o'clock this afternoon at the Monrovia Funeral Chapel, 128 East Palm Avenue, Monrovia, with Dr. E. P. Lyon in charge. Miss Gilbert is survived by three brothers, H. B. Gilbert of Logansport, Ind., Carl W. Gilbert of San Pedro and Edwin B. Gilbert of Marshfield, Missouri.
